AN EXPRESSION OF APPRECIATION

The Eastern National Livestock Show is pleased to announce that the premiums offered for the 1957 Show are the highest ever, \$52,137.00. The grand cooperation of the Maryland State Fair Board makes this possible. This year the Fair Board has awarded \$27,055.00 for the Fall Show and \$2,172.00 for the 1958 Spring Hog Show. The State Fair Board composed of G. H. Hibberd, Chairman, Louis McL. Merryman, Vice-Chairman, Frank D. Brown, Jr., Secretary, D. Ernest Matthews, Robert V. Norris, A. Doty Remsburg, Fred C. Downey, C. Russel Galbreath, Olin Davis, Sr. and R. Nelson Phelps, Executive Secretary, has been very generous.

In addition to the Fair Board the Eastern National Livestock Show is very appreciative of the support of the various beef cattle, swine and sheep breed associations.

There are also many individuals and organizations whose efforts and support have been of the utmost benefit and therefore are generously acknowledged. It is our sincere hope that the management can make this, our 11th Eastern National, continue to uphold the high caliber of the previous shows.

EASTERN NATIONAL LIVESTOCK SHOW, INC.

HERSCHEL H. ALLEN, JR., *President*

THE EASTERN NATIONAL

Livestock is an integral and vital part of the economy of the eastern part of the United States and as eastern states have industrialized and urbanized, their incomes and well-being have risen. Their agricultural economy has become largely tied to that of animals and their products. The Eastern National Livestock Show has been developed to accelerate these trends toward a livestock economy in the East and to improve both the quality and quantity of livestock production throughout the Eastern States. Naturally, any industry serving the livestock interests is also benefited by any stimulation of livestock production.

Back in 1929 the old Baltimore Livestock Show was held at the Union Stock Yards in Baltimore. Some fifty or sixty livestock producers, commission men and meat packers worked tirelessly to develop a real livestock show here in the east. The quality of livestock improved along with the quantity of production . . . thus the advent of the Eastern National Livestock Show eleven years ago.

One-fourth of the nation's consumers live in the East. To help feed these consumers, the Show has been developed to stimulate livestock production in the East and especially in the states from which its greatest support comes, namely: Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia and West Virginia. However, we have interests from the New England States and as far south as Florida as evidenced by memberships and exhibitors in both these widely separated areas.

Within ten years the Eastern National has made tremendous strides and is now one of the nation's leading livestock shows, sharing the spotlight with the shows at Chicago, Denver and Kansas City. Exhibitors are attracted from twenty-seven states, including Wyoming, California, Texas, Colorado, Maine and Florida, bringing with them the most superb livestock in the country. Champions selected at the Eastern National have gone on to retain their championships at the International at Chicago. Approximately 3,000 head of livestock are exhibited at the Eastern National.

As the Eastern National has grown, so has the interest in the livestock industry in the East. The Eastern National is contributing much to the strong trend toward a livestock economy in the territory it serves. It provides a medium of stimulus to the greater production of meat for Eastern consumers and also provides a special stimulus to the improvement in the quality of the animals. **THIS IS IMPORTANT!** With the industrialization and increase in population on the West Coast, more midwestern meat is going west, leaving the East more dependent on its own meat production. The quantity of eastern meat is increasing and the quality is improving. Data are fragmentary but indicate a great expansion of the livestock industry throughout the Eastern area.

The youth of the nation play a big part in the livestock industry. Therefore, the Eastern National Livestock Show is an investment in the future. It has become the culmination of all 4-H Club and F.F.A. livestock endeavors, not only in Maryland, but also for many exhibitors in adjoining states. The 4-H Clubs are the largest rural organization in the world. These youngsters look to us for help and inspiration. The Eastern National includes the only completely rounded out livestock and meat judging contests in the East, both intercollegiate and 4-H.

WHY?

What is the EASTERN NATIONAL? What makes it so important to the future of livestock production in this section of our country?

From a very modest beginning in 1947, the EASTERN NATIONAL has grown into one of the most important livestock shows in the United States. Here we have the opportunity of demonstrating the value and the strength of our progressive livestock production. Here is fostered the incentive to build even a greater future in terms of our bloodstock achievements.

What makes the EASTERN NATIONAL possible? Who controls the destiny of this great undertaking?

All the breeders, the packers, the business and industrial leaders who stand behind the idea that a healthy agriculture in the East is a sound, basic principle of progress.

To keep the EASTERN NATIONAL strong, to insure its ability to serve all of us, requires the support of each of our individual enterprises.

MEMBERSHIP IN THE EASTERN NATIONAL SIGNIFIES YOUR WILLINGNESS TO PARTICIPATE IN THE FUTURE OF OUR GREAT SHOW, IN THE FUTURE OF IMPROVING LIVESTOCK DEVELOPMENT IN THE EAST.

The growth and progress, in fact the very ability of the EASTERN NATIONAL to endure, is based upon the funds derived from membership dues.

If you are **not** a member of THE EASTERN NATIONAL LIVESTOCK SHOW, INC., please accept this as a personal invitation from our Board of Directors to affiliate your farm or your business with our future.

JOIN THE EASTERN NATIONAL. ANNUAL DUES ARE \$25. AND SHOULD BE SENT TO THE TREASURER AT OUR OFFICE, MARYLAND STATE FAIR GROUNDS, TIMONIUM, MD.

THE FUTURE OF THE EASTERN NATIONAL DEPENDS UPON ALL WHO HAVE A STAKE IN AGRICULTURE HERE IN THE EAST.

EILEENMERE 1615—One of the greatest sons of Eileenmere 1100th, and a full brother to the 1955 International Grand Champion female.

Wise Words of Wisdom:

The key to the future is in the past

Genes can neither be created nor destroyed, just rearranged. The creation of the future lies in the best combination of existing bloodlines.

BLACK DUKE OF RED GATE, by PRINCE OF ROWLEY, his sons and daughters, are our link to the past. Come see how we have linked the past to the present, and why our future is assured.

another first for shorthorns *

Yes, just about a year ago another show season ended with a Shorthorn as International Grand Champion Steer. It marked another milestone in the many triumphs of the Red, White, and Roan breed . . . a breed that has "set the style" at the International five times since the end of World War II. In addition, they've taken four of the Reserve Championships during that time. If you are thinking about going into the purebred beef cattle business—it will pay you to consider Shorthorns and Polled Shorthorns. They're pacesetters for improvement in today's beef cattle. Write us for further information.

Charolaise Cattle are the Largest Cattle on Earth

The economic death knell of the small over-fat, slow-growing beef animals has sounded. The beef animals of the future will have more meat, less fat, less bone and will grow to huge sizes. The pure bred Charolaise beef animal is this kind of beast; bigger and heavier than you can imagine and it gets bigger and heavier more quickly than you might believe possible.

It will be years before there will be enough Charolaise in the U. S. to meet the need so the demand for calves to establish breeding herds will exist for years to come.

It's a nice experience in the cattle business to be able to sell 10 times as many calves as you can raise. Start your breeding herd now and share this experience with us.

PRECISION-MADE for YOUR crops

To produce the yields you want each crop you grow requires definite amounts of certain plant foods. Your soil contains some of these. The most economical and most profitable fertilizer for you is the fertilizer that makes up the difference between what your soil can supply and what your crop must have. That's why it pays to use V-C Fertilizers **precision-made** for your particular crops and soils. You avoid waste because you get more crop-producing power per dollar you invest. You get bigger yields at the lowest possible cost. This means more money in your pocket.

Precision-made in a V-C factory near your farm, your V-C Fertilizers are backed by all the resources of a great national organization. Manufacturing experience, technical skill, scientific research and farm know-how are constantly working to bring you more profits from **precision-made** V-C Fertilizers.
